

Certificate

of recognition

This certificate is issued to

Mercurius IT Ltd

The purchase of 197 credits (tCO₂e) on 28 May 2025 supporting the Conservation Coast REDD+ project, located in the Department of Izabal in the Caribbean coast region of Guatemala, Central America and Katingan, Indonesia. This projects are validated and verified under Verra's Verified Carbon Standard (VCS) and Climate, Community and Biodiversity (CCB) Alliance. The projects support forest protection, not only reducing carbon emissions, but also supporting a host of co-benefits such as habitat conservation, employment, sustainably produced commodities such as spices and jungle leaves, eco-tourism and helping regulate water supply.

Date of issuance

12/06/2025

CO₂e captured

197 tonnes
