## Using This Guide

This guide is designed to improve your understanding of how to license Microsoft Dynamics 365 Business Central.

This document does not apply to Microsoft Dynamics 365, Microsoft Dynamics 365 on-premises, Microsoft Dynamics 365 for Operations on-premises, Microsoft Dynamics NAV, Microsoft Dynamics GP, Microsoft Dynamics SL, Microsoft Dynamics AX 2012 or prior versions, or Microsoft Dynamics CRM 2016 or prior versions. This guide is not intended to influence the choice of Microsoft Dynamics products and services or provide technical specification. The examples presented in this guide are illustrative. Microsoft reserves the right to review or update this document at any time without notice.

For help determining the right technology solution for any given organization, including the license requirements for a specific product or scenario, consult with your Microsoft account team or your Microsoft Dynamics Certified Partner.

This guide does not supersede or replace any of the legal documentation covering use rights.

## Introduction to Microsoft Dynamics 365

Microsoft Dynamics 365 Business Central (previously known as Dynamics 365 for Finance and Operations, Business edition) fits the needs of midsize businesses with core business needs. It helps organizations connect their financials, sales, purchase, inventory, projects, service, and operations.

With Dynamics 365 Business Central, you must license at least one of Dynamics 365 Business Central Essentials or Dynamics 365 Business Central Premium users. Additional access to the service functionality by other users is licensed with Dynamics 365 Business Central Team Members.

Dynamics Business Central functionality is delivered through the Dynamics 365 Business Central Essentials or Premium User.

## Subscription Licensing Requirements

### Licensing Requirements for Internal Users

You may license access to Microsoft Dynamics 365 Business Central by purchasing a Subscription License (SL) for every internal user who directly or indirectly accesses the service.

Dynamics 365 Business Central has one type of SL:

User SLs are assigned on a "named user" basis, meaning each user requires a separate User SL;
 User SLs cannot be shared but an individual with a User SL may access the service through multiple devices.

The User SL grants users non-perpetual rights (with no buy-out rights) to the use of the Dynamics 365 Business Central service. As long as you are current on your subscription payments and adhere to the <u>Product Terms and the Online Service Terms</u>, you will have access to the most up-to-date version of your Microsoft Dynamics 365 Business Central.

#### Licensing Requirements for External Users

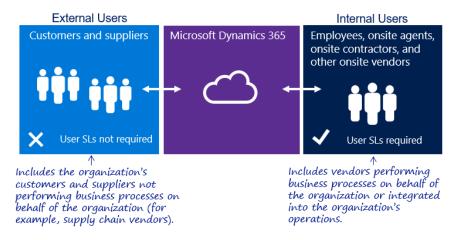

External users are end customers and third-party users of the organization or its affiliates and do not require SLs to access Microsoft Dynamics 365. External user access is included with the organization's internal user SLs.

External users cannot use any clients provided by the Microsoft Dynamics 365 Business Central Application Programming Interface (API), such as the Windows client, the Web client, the Windows, the iPad or iPhone app, or the Android application.

In addition, external users include off-site vendors not on an employee-like relationship with the organization or its affiliates (e.g. IT help desk support vendors serving multiple customer organizations).

However, external user access does not extend to the customer or the customer's affiliate's contractors, vendors, or agents providing business processes on the customer's behalf or using Microsoft Dynamics 365 to manage any portions of their business. In this sense, the customer may not use Microsoft Dynamics 365 to provide business process outsourcing services to its clients.

Figure 1: Internal vs. external users

#### Multiplexing

Multiplexing refers to the use of hardware or software that a customer uses to pool connections, reroute information, reduce the number of devices or users that directly access or use Microsoft Dynamics 365 service. Multiplexing does <u>NOT</u> reduce the number of SLs of any type required to access the Microsoft Dynamics 365 service. Any user or device that accesses Microsoft Dynamics 365 —whether directly or indirectly—must be properly licensed.

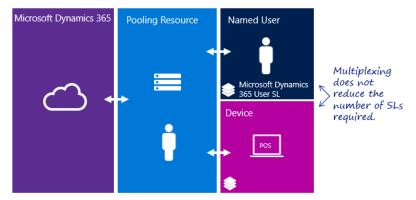

Microsoft Dynamics 365 SLs are required for users or devices that directly input, query, or view data from the Microsoft Dynamics 365 service. Similarity, Microsoft Dynamics 365 SLs are required for users or devices that input data into, query, or view data from Microsoft Dynamics 365 through a pooling device. Pooled connections use a non-interactive user account in Dynamics 365 that can access the system but only via the web service layer. Internal users and devices accessing Microsoft Dynamics 365 data indirectly through a portal or via an API to a separate service such Microsoft Outlook must also be properly licensed, regardless of if they are set up as a Microsoft Dynamics 365 user in the service, for example:

- Internal users and devices access Microsoft Dynamics 365 data indirectly through a PowerApps must still be properly licensed for Dynamics 365.
- Any user or device that accesses the service, files, data, or content provided by the service that is made available through an automated process requires a Microsoft Dynamics 365 SL.

The number of tiers of hardware or software between the Microsoft Dynamics 365 service and the
user or devices that ultimately use its data, services, or functionality does not affect the number of
SLs required.

For additional information about multiplexing refer to the Microsoft Volume Licensing Brief Multiplexing—Client Access License (CAL) Requirements.

Figure 2: Multiplexing

#### **Dual Use Rights**

Microsoft Dynamics 365 Business Central services <u>do not</u> include dual use rights, the option to deploy either in Microsoft's cloud or in a private on-premises or partner-hosted cloud. Business Central is available only as an online service.

## Licensing Programs

Microsoft Dynamics Business Central subscriptions are only available through the Cloud Solution Provider program. Visit the <a href="https://partner.microsoft.com//en-US/cloud-solution-provider">https://partner.microsoft.com//en-US/cloud-solution-provider</a> to learn more about CSP.

## International Availability

Dynamics 365 Business Central is available in United States, Canada, United Kingdom, Denmark, Netherlands, Germany, Spain, Italy, France, Austria, Switzerland, Belgium, Sweden, and Finland.

## Microsoft Dynamics 365 Subscription License Types

Microsoft Dynamics 365 simplifies licensing of business applications. The primary licensing is by named user subscription. The Microsoft Dynamics 365 user subscriptions classify users into two types, "full users" and "additional users".

**Full users** are the users whose work requires use of the feature rich business applications functionality. Examples of full users are sales people, customer service representatives, finance employees, controllers and supply chain managers. These users have also been referred to in the past as Pro users or Power Users. These full users are licensed with a Dynamics 365 Business Central subscription.

Additional users often represent a significant percentage of users in an organization and may consume data or reports from line of business systems, complete light tasks like time or expense entry and HR record updates or be heavier users of the system, but not require full user capabilities. These additional users are licensed with Dynamics 365 Business Central Team Members.

#### "FULL USERS" "ADDITIONAL USERS" Essentials Premium Team Members AAAAAAA2222 An end-to-end cloud business For companies that need sophisticated processes yet simple enough to be managed in one solution across finance, opportunity-, To drive adoption of the management solution - adding key solution across users functionality for manufacturing and approve Time & Expense, supply chain-, and project management or via service order management read business reports, lookup customer and inventory data

#### **Dynamics 365 Business Central Team Members**

The Dynamics 365 Business Central Team Members subscription is a named user subscription designed for users who are not tied to a particular function, but who require basic Dynamics 365 Business Central functionality. This license includes read access as well as some write access for select light tasks across Dynamics 365 Business Central functionality for a given tenant. The Dynamics 365 Business Central Team Members SL grants a user full read access to Dynamics 365 Business Central Essentials and Dynamics 365 Business Central Premium for a given tenant. In addition, the Dynamics 365 Business Central Team Members SL includes some limited use write access to Dynamics 365 Business Central Essentials and Premium.

Dynamics 365 Business Central Team Members also includes the "PowerApps for Dynamics 365 Applications" license. Dynamics 365 Business Central Team Members users can use PowerApps to access Dynamics 365 Business Centre within the bounds of their Team Members license.

Dynamics 365 Business Central Team Members requires that at least one other user be licensed with Dynamics 365 Business Central Essentials or Dynamics 365 Business Central Premium.

Dynamics 365 Business Central Team Members users can do the following:

- Read anything within Dynamics 365 Business Central
- Update existing data and entries in Dynamics 365 Business Central existing data are records like customer, vendor or item records which are already created. Entries means entries on which it is specifically allowed from an accounting perspective to update specific information. (e.g. due date on customer ledger entries)
- Approve or reject tasks in all workflows assigned to a user
- Create, edit, delete a quote
- Create, edit, delete personal information
- Enter a time sheet for Jobs
- Use PowerApps for Dynamics 365

See <u>Appendix A</u> for a summary of Dynamics 365 Business Central Essentials use rights, <u>Appendix B</u> for a summary of Dynamics 365 Business Central Premium use rights, and the PowerApps licensing guide for additional information on PowerApps for Dynamics 365 licensing.

#### **Dynamics 365 Business Central**

Subscriptions are named user subscriptions where a user is licensed for Dynamics 365 Business Central Essentials or Dynamics 365 Business Central Premium. The following application is part of Dynamics 365 Business Central: PowerApps for Dynamics 365.

#### **Business Central Application**

Dynamics 365 Business Central is a comprehensive business management solution for SMBs. The Dynamics 365 Business Central application can be licensed two ways:

#### **Dynamics 365 Business Central Essentials:**

- Financial Management
- Customer Relationship Management
- Project Management
- Supply Chain Management
- Human Resources Management
- Warehouse Management

#### **Dynamics 365 Business Central Premium:**

- Everything in Essentials
- Service Management
- Manufacturing

**Dynamics 365 Business Central (per user license)** – This license provides users with unrestricted access to the functionality included in Dynamics 365 Business Central Team Members and Business Central.

Dynamics 365 Business Central Applications include the "PowerApps for Dynamics 365 Applications" license. Dynamics 365 Business Central users can use PowerApps to access Dynamics 365 within the bounds of their Dynamics 365 Business Central Essentials or Premium license.

Customers who have external accountants who wish to connect to the Dynamics 365 Business Central application can purchase one per tenant at no additional cost. External Accountant Licenses contain all the same use rights as Dynamics 365 Business Central license except for the following: Access to user set up or admin tasks and any other Dynamics 365 Business Central application.

See <u>Appendix A</u> for a summary of Dynamics 365 Business Central Essentials use rights, <u>Appendix B</u> for a summary of Dynamics 365 Business Central Premium use rights, and the PowerApps licensing guide for additional information on PowerApps for Dynamics 365 licensing.

## Default Subscription Capacities

| Production Instance          | 1 Included                    |
|------------------------------|-------------------------------|
| Non-Production Instance      | None                          |
| File Storage                 | Unlimited                     |
| Database Storage             | Unlimited                     |
| External Accountant Licenses | 1 Included                    |
| Companies                    | Unlimited                     |
| Cortana Intelligence         | 1800 seconds per month/tenant |

### Other Product Licenses

Licenses for Microsoft Dynamics 365 Business Central service do not include licenses for other products and services that may be necessary to light up integrated scenarios or extend functionality; product licensing rights for these must be established separately. The following resources can help you to determine the required additional licenses:

#### Microsoft Power BI in Dynamics 365

Dynamics 365 Business Central users are not provided with any standalone or general-purpose Power BI license or use rights. Customers who require Power BI Pro will need to license and pay for it separately.

Dynamics 365 Business Central application subscriptions include an option to embed Power BI content as a product feature but require users to subscribe to Power BI (free user or Power BI Pro depending on content) separately to configure access to this content. More details are available in <a href="this article.">this article.</a>

### Cortana Intelligence

Customers who wish to expand beyond the default subscription capacity included in Dynamics 365 Business Central will need to have a separate Azure subscription.

#### Microsoft PowerApps

Customers who wish to go beyond the PowerApps functionality included in Dynamics 365 Business Central can also purchase PowerApps P1 or P2 on a standalone basis.

PowerApps and Microsoft Flow capabilities are included in Dynamics 365 Business Central and Dynamics 365 Business Central Team Members subscriptions so that users can create, modify and use mobile apps based on Dynamics 365 data.

Dynamics 365's standalone PowerApps offering is P2.

- Microsoft PowerApps is a service for building and using custom business applications that
  connect to your data and works across the web and mobile without the time and expense of
  custom software development. Learn more at the <a href="PowerApps service page">PowerApps service page</a>.
- PowerApps licenses always include Microsoft Flow capabilities. Microsoft Flow is a service for automating workflow across the growing number of applications and SaaS services that business users rely on. Learn more at the <u>Microsoft Flow service page</u>.

PowerApps users who access Microsoft Dynamics 365 Business Central indirectly through a PowerApps must properly be licensed for Dynamics 365 Business Central service. See the PowerApps licensing guide for additional information on PowerApps and Flow licensing.

## Support

The Microsoft Cloud Solution Provider program enables partners to manage their customer's success. Support for Dynamics 365 Business Central is solely through the Microsoft Cloud Solution Provider partners.
